

2017 Factory Stock Front Wheel Drive Division Mt Lawn Speedway (2/17/17)

This class has been developed to permit those desiring to try racing at an absolute minimum cost. This class is a cost effective and affordable racing division. Cars must remain stock. Specific safety modifications are permitted. If you want to race in this division keep your car stock.

Eligible vehicles must be a front wheel drive subcompact style four or six cylinder model. No turbos or rotary engines. No convertibles, four wheel drive or mid-engine models.

All glass except windshield must be removed. No broken glass can remain in car. Lexan replacement windshield permitted.

All flammable material must be removed except the factory dash board

Must retain factory seat belts in good working order and in use at all times. Racing seats and belts are optional.

Must have rollover bar bolted or welded to 4" steel plates bolted or welded to floor pan. Down bars from roll bar must not go beyond middle of side rear windows. No bars past the front firewall. Door plates are highly recommended.

Only stock wheels and tires allowed. Any 13",14",15",16" DOT 70,75, or 78 series tire with standard road tread may be used. Tires that measure too soft will not be allowed.

Car ride height must be 5".

Must have kill switch mounted next to driver's side window.

The interpretation of these rules is up to the track tech inspector. If track officials feel you have modified your car beyond the intent of this division you will only be allowed to race in the Pro compact division.

Remember Stock means Stock.

Call Bill Noel 620-2629 or Mike Stone 623-4200 with questions. Save yourself a phone call if it isn't stock forget it.
